GET THE FACTS ABOUT SLEEP APNEA!

- Help Reach the Undiagnosed!
- Remind Your Patients They Are Not Alone!

Giving this valuable brochure to the members of the public may help the undiagnosed to seek evaluation for their sleep problem. Many people who have sleep apnea are not even aware of the ailment, but once the symptoms are brought to their attention, they recognize that they may have this common disorder. The American Sleep Apnea Association's brochure, "Get the Facts about Sleep Apnea," describes the disorder and symptoms in addition to reviewing the consequences of untreated sleep apnea. The brochure, especially with its simple "Snore Score" of screening questions, is helpful in increasing awareness of sleep apnea and encouraging appropriate diagnosis and treatment. Also, you can use the brochures as an easy way to inform your sleep apnea patients about the ASAA and its educational materials.

As the only non-profit organization dedicated to increasing the awareness of sleep apnea, the ASAA provides these brochures at cost. To purchase brochures for distribution, please complete the form below and return it to the ASAA office with your check made payable to ASAA. Please note that payment must accompany your order; purchase orders are not accepted. If you have questions about the brochures or other ASAA materials, please call the ASAA at 202/293-3650.
